Partnership Committee 2019 Annual Meeting

As the committee chair, I must report that this committee has largely been inactive, and that I am the one responsible for its inactivity. Ushering all of the changes to the 2020 program left me with too little time to devote to the development of this new committee.

With that said, the committee did hold three meetings, and some wonderful conversations were had. We identified that CSLP has work to do formulating what it seeks from partner organizations, and work articulating what CSLP has to offer to potential partners.

Recognizing that my workload is not likely to diminish in the next few months, I ask that if anyone has an interest in helping CSLP develop strong outside partnerships, to contact me. I would be very grateful to demote myself to co-chair, and share the responsibilities of chairing this important committee.

Luke Kralik
Organizational Coordinator
Partnership Committee Chair
